Professional Summary

Motivated Software Engineering undergraduate at the University of Kelaniya with hands-on experience in full-stack web application development using Spring Boot, React, MySQL, MongoDB, and Tailwind CSS. Passionate about building scalable, user-focused applications and continuously adopting modern engineering practices. Seeking an internship to apply technical skills, gain industry exposure, and contribute to impactful software solutions.

Education

- **University of Kelaniya, Sri Lanka** April 2024 – Present
BSc (Hons) in Software Engineering **GPA: 3.56 / 4.00**

Projects

- **TechSpark E-Commerce Platform** 🔗 Source Code
Developed a full-stack e-commerce platform supporting product listings, user authentication, and order management. Implemented secure backend features including JWT-based authentication and role-based access control (RBAC). Designed and built product management and inventory modules with RESTful API endpoints. Currently developing responsive frontend features using React and Tailwind CSS.
- **Book Fair Event Booking Platform** 🔗 Source Code
Developed a full-stack booking management system to handle event registrations and end-to-end user workflows. Engineered RESTful backend APIs with Spring Boot, implementing business logic and data persistence using MySQL. Built responsive frontend interfaces with React, ensuring seamless user interactions across all devices. Designed a normalized relational database schema with efficient structures to support complex queries.
- **Student Project Showcase Portal (MERN Stack)** 🔗 Source Code
Built a full-stack platform enabling students to showcase academic and personal projects, with discovery and interaction features for recruiters and other users. Implemented secure JWT authentication, bcrypt password encryption, protected routes, and role-based access control. Developed project management features including creation, editing, deletion, thumbnail uploads, categorization, search, and filtering. Added social engagement features such as project likes, user following, and notifications, backed by MongoDB Atlas.

Technical Skills

- **Languages:** Java, JavaScript, C
- **Frontend:** React.js, Vite, HTML, CSS, Tailwind CSS
- **Backend:** Spring Boot, Node.js, Express.js
- **Database:** MySQL, MongoDB
- **Stack:** MERN Stack, Spring Boot + React
- **Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Postman
- **Concepts:** OOP, Data Structures & Algorithms, SOLID Principles, Software Architecture

Soft Skills

Problem Solving, Team Collaboration, Communication, Adaptability, Attention to Detail
